

WHO WE ARE ?

We are here for you!

RENK GROUP which provides the service which people require with a low cost, increase their life quality and continuously improve itself, was founded in 2006 by its' visionary sprit which is enterprising, innovator and dutiful.

It has become a corporate group in short-time period by adding importing & exporting of the environmental cleaning machines area to its' actives which started as a dealer for municipalities and public enterprises.

RENK GROUP carried out a lot of different projects every passing year throughout the county with waste-oil, plastic-bottle and book-toy gathering units, urban furniture and social responsibility projects.

This rapid growth turned into stabilization in time, and RENK GROUP claimed its' presence between the reliable and respected organizations in the electrical urban and environmental cleaning machines industry.

Our firm contributes to the national economy with its' mechanization and machine fleet, its' capital which grows bigger day by day and its' employment more than 25 technical and managerial stuff.

WHO WE ARE ?

RENGROUP made its' biggest investment as importing from China and Italia with its' enterprising and dynamic structure which is willing to take risks, became a demanded brand in the industry with the sales which it made throughout all the regions of Turkey and the professional service it provides after the sales .

RENK GROUP which signed a distributorship agreement concerning Europe and Turkey with MINGNUO, the giant brand of the machinery industry of China which is the center of international trade, accelerated its' steps which leads to becoming a global firm. RENK GROUP, by strengthening its' organizational structure more with skilled workforce and by utilizing the opportunities which are offered by modern management mentality, it aims to grow bigger by participating within national economy.

RENK GROUP take firm steps forward to its' high goals with its' machine-park, project management which it achieved by its' expert staff and team work, trustworthy and qualified machinery, on-time delivery with reasonable costs and, technological possibility which it uses from preparing an offer to auxiliary equipment provision.
